Explanation of the symbols used:—C.—Cases; D.—Deaths.

\* Cases not available.

NEW DELHI 3 (INDIA);

The 13th February, 1950.

S. P. JAIN,  
for Registrar General, India.

# NATIONAL SAVINGS CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the Small-Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

**TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT**

REMARKS

The figures of births and deaths shown in this statement for the week ending the 14th January, 1950 relate to 126 towns with an estimated population of 16,360 thousands. The total number of towns is 224 and their population is 27,938 thousands. Thus 56% of the total number of towns representing 59% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 10,152 and 5,753 representing birth and death rates of 32.3 and 18.3 per thousand of population respectively.

(A) States (Parts A & C; formerly provinces). —The data here relate to 100 towns with an estimated population of 13,325 thousands. Information for Madras, West Bengal, Bihar and Assam could not be included. The total number of towns is 192 and their population is 24,366 thousands. Thus 52% of the total number of towns representing 55% of the total population is covered. The numbers of births and

deaths recorded in these towns were 8,718 and 4,920 representing birth and death rates of 34.0 and 19.2 per thousand of population respectively. The table at the end gives the position by provinces. No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B; formerly shown as Unions & States).—The data here relate to 26 towns with an estimated population of 3,035 thousands. The total number of towns is 32 and their population is 3,572 thousands. Thus 81% of the total number of towns representing 85% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,434 and 833 representing birth and death rates of 24.4 and 14.3 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
